Power Products Handbook

excel

PRESENTATION

Welcome to our Excel Power Products Handbook. Dasko is a leading New Zealand supplier of auto electrical parts. Day in, day out, we source parts for New Zealand's extensive range of on and off road vehicles.

This comprehensive Excel Handbook is packed with information, combined with an easy to use layout in vehicle brand order. This handbook is an accumulation of experience, extensive market research and global sourcing of products.

COMPANY PROFILE

Since the 1960s, we've served New Zealand's motor vehicle trade with integrity and honesty. We're a family owned business and when it comes to auto electrical parts, our product knowledge is second to done. The depth of our knowledge and history makes it easy for us to do what we do best - looking after our customers.
