

dasko

Excellence in parts and service since 1963

Dasko is a leading New Zealand supplier of auto electrical parts. Day in, day out, we source parts for New Zealand's extensive range of on and off road vehicles.

Since the 1960s, we've served New Zealand's motor vehicle trade with integrity and honesty. We're a family-owned business and when it comes to auto electrical parts, our product knowledge is second to none. The depth of our knowledge and history makes it easy for us to do what we do best—looking after our customers.

Full service history.

A pivotal part of Neville Boakes' job as an employee of the Wairoa Auto Electric company was to hand-deliver parts to his customers on the company bicycle, covering many kilometres each week. This early example of Dasko's silver service performance is what set the benchmark for Dasko today.

1963

Shortly after WWII, a small automotive repair company was founded in Northern Wairoa called Wairoa Auto Electric. Neville Boakes, the founder of Dasko, began work for Wairoa Auto Electric in 1963 as an apprentice auto electrician and spare parts salesman before eventually buying the company in 1987. To meet the growing demand for automotive electrical parts for European vehicles, he created a new division of the company which, in 1995 became Dasko Marketing – an independent company and respected national distributor of automotive electrical parts.

The image features a stylized map of New Zealand, rendered in white lines on a black background. The map shows the outlines of the North and South Islands, with a network of roads connecting various points. A central text box is overlaid on the map, containing information about Dasko's distribution services. The text box is divided into three sections: a red header, a grey middle section, and a white bottom section.

Strategically located.

Our distribution headquarters in Silverdale, Auckland ensure we can have the part you need couriered to you pronto. If you're in the greater Auckland area, Waikato or Bay of Plenty this means same day delivery. For the rest of the country, you'll receive it overnight. If you can't find the part you need anywhere in New Zealand, we'll air freight it in from overseas for you.

Today.

Dasko has grown along with the Boakes family and today, three generations work within the company. Brothers Simon and Greg are both Directors and father Neville still maintains an active role.

The company now offers parts for all kinds of makes and models to cater for the vast array of vehicles on New Zealand's roads. Our distribution centres are now strategically located in Silverdale, Auckland and Dargaville in Northland. Parts can soon be searched through our electronic catalogue to make getting the correct part you need quicker and easier.

Our product range.

We don't just offer one-off parts, we offer complete packages customised for New Zealand's extensive range of vehicles. That's why we've streamlined our brand portfolio and brought all of our quality products under the one brand—Excel.

The Excel programme is already a market leader in quality electronic engine management components and sensors. Starting with this base, it's easy to see why we've consolidated our other quality products under the highly respected Excel brand.

Products now marketed under the Excel brand.

The existing Excel range

Our flagship brand of ignition and EFI products. This vast range covers all New Zealand vehicles and is well known nationally by major chain stores and auto electrical workshops.

RTX

This covers starter motors and alternators and their respective repair parts for all on and off road vehicles, specialising in European automotive car makes and models through to light diesel commercial vehicles, trucks, coaches, construction equipment, industrial machinery and marine engines electrics.

Lanseca

Small motor electrics for off-road vehicles, such as ride-on mowers, marine outboard engines, jet skis, quad bikes and tractors. We have a huge range of accessories, plugs, sockets, work lamps and key switches, as well as starters and alternators to suit.

Wipex

Our industrial and commercial wiper systems range. From washer pumps and bottles through to huge pantograph arms, we also design-to-suit for our customers.

TUV Lites

For specialist replacement commercial lighting, we offer an exclusive range of headlamps, corner lamps, sidelamps and roof lights, as well as sealed beams, work lamps and special globes.

Excel alternators, starters and parts.

Excel offers a programme of repair parts and complete starter motors and alternators to suit Australian, Korean, European, American and Japanese vehicles. We monitor the standard of our suppliers closely to provide a consistent supply of quality units to our customers.

All our starter motors and alternators are serial numbered, giving you an exact record of purchase date and history. The Excel range of alternators, generators and starter motors includes early inertia starters, the latest in planetary gear reduction types, early dynamo generators and the European water-cooled alternators of today.

These units carry a 12-month/20,000 km warranty and replace the following OEM manufactured brands: Bosch, CAV, Delco, Delphi, Ducellier, Hitachi, Iskra, Leece Neville, Lucas, Magneti Marelli, Mando, Mitsuba, Mitsubishi, Motocraft, Motorola, Nikko, Nippondenso, Paris Rhone, Poong Sung, Prestolite, Sawafuji and Valeo.

European vehicle starters and alternators.

Excel's reputation for quality starters and alternators secures our customers for life. Specialists in New Zealand's European vehicle sector appreciate the extensive range we service in this prestige market.

We have units available to suit not only European vehicles, but also American, Asian and Australian makes and models. This includes Alfa Romeo, Audi, BMW, Chrysler, Citron, Daewoo, Fiat, Ford, Holden, Hyundai, Jaguar, Jeep, Kia, Land Rover, Mercedes, Mini, Peugeot, Porsche, Renault, Rover, Saab, Skoda, Ssangyong, VW and Volvo.

ALT112230.
Suits Peugeot, Citroen.

STR111123.
Suits Opel, Astra, Vectra
(and Daewoo).

Light commercial diesel vehicles starters and alternators.

Excel's reputation for providing brilliant solutions continues throughout its light commercial diesel range. Excel's starters and alternators are an essential investment for those wanting to minimise downtime and disruptions. A comprehensive range is available to suit BMW, Daihatsu, Fiat, Ford, Hyundai, Isuzu, Land Rover, Mazda, Mercedes, Mitsubishi, Nissan, Toyota and VW.

ALT113544.
Suits Ford Transit 2.4 TDE.

STR998400.
Suits Ford Courier, Mazda Bounty 2.5T.

Heavy duty starters and alternators.

Excel makes history with its quality range of starter motors and alternators to suit the commercial, industrial, transport, marine and coach sectors of New Zealand. With a comprehensive range of programmes to suit American, European and Japanese engines, Excel is constantly evolving — with new parts being added to the range by demand.

Dasko have an extensive cross referencing system to service numerous commercial makes including Daewoo, DAF, ERF, CAT, Clark, Foden, Iveco, Ford, Freightliner, Fuso, Hino, Hitachi, Hyster, IHC, Komatsu, Kenworth, Mack, MAN, Mercedes, Mitsubishi, Nissan, Renault, Scania, Sumitomo, TCM, Volvo and Yanmar.

STR11525.
Suits Renault Premium trucks.

ALT991853.
Suits Volvo FH, FM, Engine D9A, D9L.

WMR4401.
Suits winches.

Excel power products.

Our small motor electrics are renowned for their superiority in the most demanding of environments. Excel has a range of starter motors, charging system components and electrical accessories to suit the single cylinder small engine market including ride-on mowers, industrial engines, ATV, UTV, motorcycles, outboard engines and jet skis.

The Excel power products programme also includes starter motors and alternators to suit the New Zealand agricultural tractor market. Ask for our Excel Power Product handbook giving you 265 pages of identifiable illustrations and detailed information on starter motors, alternators, magneto charging, rectifier regulator assemblies, solenoids, repair kits and electrical accessories.

Excel power products service the following makes: Briggs & Stratton, Cushman, Hatz, Honda, Husqvarna, John Deere, Kawasaki, Kohler, Kubota, Lombardini, Onan, Robin, Ruggerini, Selva, Tecumseh, Toro, Yanmar, BMW, Bombardier, Can-Am, Cub Cadet, Harley Davidson, Suzuki, Polaris, Moto Guzzi, Yamaha, Chrysler, Evinrude, Force, Johnson, Mariner, Mercury, OMC, Tohatsu, Sea-Doo, Belarus, Case, Claas, Daedong, David Brown, Deutz-Fahr, Fendt, Fiat, Ford International, Iseki, JCB, Landini, Leyland, McCormick, Massey Ferguson, New Holland, Renault, Same, Shibaura, Universal, Valtra and Zetor.

RTF138895.
Regulator rectifier assembly.

STR11432.
UTV starter motor.
Suits Kawasaki Mule KAF 400, 600.

STR112563.
Stationary engine starter motor.
Suits Briggs and Stratton engines 11-24 HP.

STR11416.
ATV starter motor.
Suits Honda Foreman TRX400, 450, 500.

STR112247.
Marine outboard starter motor.
Suits Mercury 9.9-25 HP engines.

STR111917.
Jet Ski starter motors.
Suits Yamaha Wave Runner and Yamaha Wave Blaster 650, 700 cc.

Repair parts (non-Japanese).

The following is a selection of our extensive range of repair parts for non-Japanese vehicles. We can supply repair parts for Bosch CAV, Delco, Ducellier, Ford, Iskra, Lucas, Magneti Marelli, Mando, Motorola, Paris Rhone, Prestolite, SEV and Valeo.

*We can offer 7-10 day indent of non-stocked components.

Excel lighting.

Our replacement commercial vehicle lighting is leading the way with an extensive and growing range of lamps and lenses. Our catalogue makes it easy for you to cross-reference parts for trucks, utes, vans, coaches and forklifts, and for auxiliary and emergency lighting.

Excel lighting is available through leading parts stores nationwide. The programme includes headlamps, corner lamps, tail lamps, side lamps, repeater lamps, fog lamps, reverse lamps, licence plate lamps and cab roof lamps.

Excel lighting services the following makes: Daewoo, DAF, Daihatsu, ERF, Fiat, Foden, Ford, Hino, Holden, Isuzu, Iveco, Kia, Land Rover, MAN, Mazda, Mercedes, Mitsubishi, Nissan, Renault, Scania, Suzuki, Toyota, Volvo and VW.

Light commercial lamps and lens for utes and vans.

FD10-132.
Headlamp.
Suits Ford Transit 2000-06.

TY20-119.
Cornerlamp.
Suits Toyota Hilux 1998-01.

MZ30-105.
Taillamp.
Suits Mazda BT50 Ute 2007-.

Heavy commercial lamps and lenses for trucks, buses and forklifts.

DF10-2.
Headlamp.
Suits DAF, Foden 2002-.

HI20-12.
Cornerlamp.
Suits Hino FD, FG 2003-.

MB50-7.
Fog/indicator lamp.
Suits Mitsubishi Shogun 1997-.

Excel engine management. Ignition.

The Excel electronic engine management programme incorporates a range of market leading components and sensors designed to suit the huge variety of vehicles on New Zealand's roads. The Excel name signifies an unequalled stamp of excellence in product and service quality. You'll find Excel products sold throughout leading parts stores nationwide with the range covering over 2000 part numbers and servicing tens of thousands of vehicles. With its uncompromised value, Excel is a brand constantly evolving to meet customer and market demands.

Distributor type ignition systems.

Early ignition systems were produced using the contact point method to deliver the spark required for an engine to run. Since then, technology has evolved using electronic ignition modules which in turn, create greater reliability and efficiency.

PUC150148.
Pick-up coil.
Suits Fiat Regatta, Ritmo, Tempna, Tipo, Uno. In-distributor pick-up coils send small amount of volts to the vehicle's ignition module.

XR3002.
Rotor arm.
Suits Nissan Bluebird U13, SR18DE. Rotates on the distributor shaft releasing spark to the correct contact inside the distributor cap as it passes by.

XD3003.
Distributor cap.
Suits Mitsubishi Galant, Mitsubishi Diamante 6A11, 6A12 engines. Distributes spark at the correct time and order to the spark plugs.

XEI9024.
Ignition module.
Suits Toyota Camry, RAV4, Corona. Amplifies the spark from the pick-up coil to the main ignition coil.

XIC5107.
In-distributor coil.
Suits Ford Telstar, Ford Laser, Mazda 323 and 626 -.

Distributorless type ignition systems.

Recent advancements in technology now mean that ignition systems can be developed without a distributor. The cam and crank position sensors transmit messages to the ECU – increasing engine efficiency.

XIC8103.
Coil pack assembly.
Suits Ford Taurus, Mondeo V6.

XIC7101.
Direct-fire pencil coil.
Suits VW Golf, VW Touran.

XIC7093.
Direct-fire coil rail.
Suits Saab 9000, 93 -.

XC6851.
High-tension lead kits.
Suits Audi A4, A6, A8, 2.4, 2.6, 2.8 1995 onwards. Transports high-tension voltage to the spark plugs.

Spark Plugs.
Suits all makes.

Glow plugs.
Suits all makes.

Excel engine management.

Sensors and fuel.

Excel sensors carry out vital and demanding functions by measuring and analysing messages and transmitting them to the engine (ECU) computer. Accurate signals are sent to the engine management control components improving power, economy and efficiency, whilst reducing emissions.

XAF10037.
Airflow sensor.
Suits Holden Commodore VT LS1 5.7 V8. Measure air temperature, humidity and volume sending messages to the ECU.

XAF10002.
Airflow sensor.
Suits Ford Laser, Mazda 323. Measures air temperature and volume.

TS023.
Crank sensor.
Suits Ford, Mazda V6 2.0KL, 2.5KF. Supplies information on the crank shaft's current position to the ECU.

TS5001.
Cam sensor.
Suits Subaru Legacy, Impreza. Supplies information on the cam shaft's current position to the ECU.

XIS10011.
Idle speed control.
Suits Holden Camira, Astra, Frontera 1.8, 2.0, 2.2. Controls the idle speed of the vehicle by altering airflow.

XKS1007.
Knock sensor.
Suits Nissan. Fitted to the engine block to detect detonation and other abnormal engine vibrations sending messages to the ECU.

XOS00413.
Oxygen sensor.
Suits Universal Applications 4 wire 13 Ω . Measures and determines unburnt oxygen content in the exhaust gas and reports to the ECU.

XTP10000.
Throttle position sensor.
Suits Daewoo Cielo, Espero, Nubira; Holden Astra, Barina, Commodore; Isuzu Rodeo; Nissan Pulsar. Supplies information on the throttle valve's current position to the ECU.

XEMS35.
Engine management sensor.
Suits Ford Focus and Mondeo.
Measures water temperature then transmits this information to the ECU.

XOPS1000 .
Oil pressure switch.
Suits Holden VT-VY GEN III LS1 5.7 V8. Keeps a close watch on engine oil pressure signaling any decrease and alerting the vehicle's warning system.

XMP10002.
Manifold pressure sensor.
Suits Daewoo Cielo, Espero, Lanos, Nubira; Holden Astra, Barina, Commodore; Hyundai Excel, Lantra; Jeep Cherokee; Kia Mentor. Measures air pressure in the intake manifold sending messages back to the ECU.

XSS10003.
Speed sensor.
Suits Hyundai. Measures speed of vehicle and transmits a message to the ECU.

The function of the inconspicuous electronic fuel injection pump is demanding to say the least. These pumps are expected to deliver high volumes of fuel under pressure to the engines fuel rail while the motor is in use.

FP51065.
High pressure intank pumps.
Suits Subaru Legacy and Imprezza.

FP21003.
High pressure inline pumps.
Suits many European vehicle applications.

FP90001.
Complete fuel pump and tank sensor module assembly.
Suits Holden Commodore VT LS1 5.7 V8.

FP62077.
Specialised high pressure pumps.
Suits Mercedes.

Excel wiper systems.

The Excel wiper programme is an extensive range of wiper components for the industrial, agricultural and construction sectors of New Zealand. Our systems can be designed and customised to suit your individual requirements.

Our range includes wiper arms, blades, motors, linkages, pivots, switches, washer pumps, bottles and nozzles. The systems come in 12v or 24v. Our blades range from 300 to 1000mm with single arm to dual pantograph arms. We have motors with a wide range of varying sweep angles to suit all kinds of different shaped windscreens.

Excel auxillary products and accessories.

Cable.

Excel's superior range of automotive and marine cables comes with many additional features at no extra cost. This includes quality double sheathing for insulation and durability on all battery cable.

Our multi-strand copper core creates an extremely flexible cable. All cable is tin coated copper cored and is printed with metre marks, cable specifications and part numbers.

Narva.

Dasko is a national distributor for Narva lighting products and consumable electrical parts. Narva is a premium, well-recognised programme of automotive components.

Projecta.

Dasko is a national distributor for Projecta battery maintenance and power equipment. Projecta offers a unique range of quality automotive battery related products. Included in the projecta range is a line up of battery chargers, jump start packs and more.

Switch equipment.

Dasko distributes a comprehensive range of specific fit and universal switch equipment. This includes combination, electric window, pendant, air, ignition, rocker, toggle and rotary switches, as well as marine switch panels, battery master switches and micro switches.

Tools and test equipment.

Dasko's range of test equipment to suit the automobile market continues to grow with demand. Talk to us about what you need.

**Dasko strives to be known throughout
New Zealand's automotive trade as
the industry leader with our focus
being on you, the customer.
By continuing to provide solutions
with products of unequalled quality,
we're well on our way.**
